

MODERNIST WATERFRONT ON LAKE ORANGE

928 Shorefront Lane, Hillsborough, NC 27278

36.15004581938365, -79.14682682533964

A rare opportunity to own a published architect-designed modernist waterfront residence on the shores of Lake Orange. Designed by architect Arielle Condoret Schechter and featured in multiple Architectural and Design publications, the Wolf-Huang House blends contemporary architecture, sustainability, and a connection to nature. Constructed with concrete panels, warm natural materials, and expansive walls of glass, this approximately 2,634 SF residence was designed to capture panoramic lake views from every principal room. Light-filled interiors open seamlessly to the outdoors, while the primary suite and spa-inspired bath offer a retreat-like setting. A full-width rear deck—part screened porch, part open-air entertaining space—overlooks the water and extends to a private dock with direct access to boating. The clean-lined modern design is complemented by a 34-panel, 8kW rooftop solar system, and two Tesla Power Walls, to create efficiency that complements the streamlined design.
